

## Threadfin's Enterprise Security with Zscaler

Our expertise in Zscaler deployment helps organizations modernize their security with cloud-native, zero-trust protection that ensures seamless coverage for users & applications worldwide.

### Zscaler Internet Access (ZIA)

Complete security stack delivered from the cloud, protecting users from threats wherever they connect.

### Zscaler Digital Experience (ZDX)

End-to-end visibility into user experience, enabling rapid troubleshooting & optimization.

### Zscaler Private Access (ZPA)

Modern zero-trust solution connects users directly to applications—not networks—eliminating VPN complexity.

### Cloud Security Posture Management (CSPM)

Automated security & compliance monitoring across your entire cloud infrastructure.

### Here's how we transform security with Zscaler:

We tackle your toughest security challenges head-on: replacing sluggish VPNs, blocking sophisticated threats & simplifying complex infrastructure. Our approach streamlines security across multi-cloud environments while reducing costs & operational overhead.

Our experts use Zscaler's powerful platform to deliver cloud-native security solutions that scale with your business. We focus on rapid deployment, seamless integration & continuous optimization to ensure your organization stays protected without sacrificing performance.

#### Plan

Assess current infrastructure, security requirements & business objectives to tailor deployment strategy.

01

#### Deploy ZIA

Implement secure web gateway capabilities with policy configuration, authentication setup & staged rollout.

02

#### Deploy ZPA

Implement zero-trust application access & application availability.

03

#### Monitor & Optimize

Track user experience with ZDX, optimize security & conduct knowledge transfer to ensure lasting success.

04

### Collaboration is our north star.

From the moment we engage, we're laser-focused on success. Our unique approach integrates our delivery team early in the process to ensure we're unified in the vision. Our project management and customer success teams ensure we don't miss a beat and all stakeholders are always in the loop.
