Microsoft Intune Migration Services

Transform your endpoint management with our Intune migration expertise. Whether you're upgrading from SCCM or implementing your first MDM solution, we deliver enhanced security and operational efficiency without business disruption.

1 | STRATEGIC ENVIRONMENT AUDIT

We start with a comprehensive analysis of your current environment to set the foundation for successful migration:

Device inventory & assessment: Identify & analyze all endpoints

Policy & configuration review: Address gaps in existing policies & compliance requirements

Compliance & security needs: Align migration with regulatory & organizational requirements

Baseline configuration with 365DSC: Capture existing state to ensure no critical configurations are missed

2 | TAILORED MIGRATION PLAN

We create a migration roadmap that ensures seamless transition and business continuity:

Step-by-step planning: Phased deployment with clear milestones

Policy optimization: Redesign for security & efficiency

Risk mitigation: Plan for contingencies to minimize disruptions

Configuration validation: Use 365DSC to set post-migration targets

3 | VALIDATION & TESTING

Our validation process ensures go-live readiness:

Configuration validation: Automated compliance checking against baseline configurations with 365DSC

Performance testing: Verify system stability & compatibility

User acceptance testing: Validate workflows, gather & address feedback

Drift monitoring: Use 365DSC to ensure alignment with organizational needs

4 | SMOOTH TRANSITION TO INTUNE

Our team ensures precise implementation:

Zero-touch device enrollment: Enable devices to work immediately without manual setup

Policy & compliance configuration: Establish policies to match your goals

Application deployment: Streamline app configuration across endpoints

Legacy system integration: Maintain continuity during migration

BEYOND MIGRATION: INTUNE MAINTENANCE SERVICES

Click here to learn more about how you can maximize your Intune investment post-migration with our comprehensive maintenance services.

- **Ongoing monitoring & maintenance:** Keep your environment optimized with regular updates
