

Threadfin's Intune Deployment QuickStart

Deploy an Intune environment in a matter of weeks with our QuickStart program. We deliver a secure and scalable foundation for managing devices and users, ensuring compliance while enabling seamless future expansion.

Here's what's included in this fixed fee engagement:

1 Licensing & Setup

- Audit & validate licensing for Intune & Azure Active Directory
- Provide recommendations to optimize licensing as needed
- Configure Azure AD Connect to enable Azure AD Hybrid-Join for workstations

2 Configuration

We handle all core configurations to ensure your environment is secure, compliant & aligned with best practices:

Device Policies:

- Configure 1 iOS policy & 1 Android policy for mobile application management (MAM)
- Create 2 policies for Windows 10/11 management

Compliance & Security:

- Create 1 Windows 10/11 compliance policy
- Establish a conditional access policy for multi-factor authentication (MFA)
- Configure Defender for Endpoint for advanced security monitoring
- Set up Intune for Windows updates & policy enforcement

Application Deployment:

- Configure Microsoft 365 Apps for Enterprise, Adobe Acrobat Reader & Google Chrome for deployment via Intune/Autopilot
- Provide a proof of concept for app deployment

Windows Autopilot:

- Configure Windows Autopilot for zero-touch deployment
- Test deployment of 2 devices using Autopilot
- Create runbooks for Autopilot workflows & software deployment processes

3 Knowledge Transfer

We ensure your IT team is comfortable managing and scaling the Intune environment with up to 8 hours of dedicated knowledge transfer.

Timeframe:

2 - 5 weeks

Audience:

- IT leaders seeking to modernize endpoint management quickly
- Engineers responsible for securing & scaling device environments

Sales Scenarios:

- Organizations moving from manual installs or legacy tools to Intune
- Companies needing zero-touch provisioning for hybrid/remote workers
- Teams looking to strengthen security with conditional access & Defender for Endpoint

Experience is our DNA.

Today we build on our expertise with an experience-led as-a-service offering that accelerates the business outcomes of our customers. We use our Experience Threading Framework to design human-centered digital technology solutions.
